**Cost:** \$5.00 at the door for all non-members  
**FREE** for paid members (annual membership January-December each year)  
**DUES ARE DUE NOW!** See rates below.

### MEETING APRIL 6, 2017 "Things That Go Bump in the Night" with Joey Korn

**Joey Korn** is a modern-day mystic and a global leader in the world of dowsing, specializing in personal energy clearing and spiritual space clearing. He has been a First Georgia Dowsers member for 20 years, ever since he began using dowsing as his full-time work. **Joey** and his wife **Jill** conduct quarterly retreats in their home near Augusta. Learn more about **Joey's** work at [www.dowsers.com](http://www.dowsers.com).

Do ghosts actually exist? Can spirits really cause supernatural events to happen in our homes? **Joey** answers these questions with a resounding "Yes!" Joey finds two primary causes of supernatural events: one is "Earthbound Spirits," and the other is what **Joey** calls "Interference Energy," which is much more common in homes. **Joey** works with these energies in people's homes almost every day.

Earthbound Spirits are human beings who have died and have trapped themselves in the astral plane. Interference Energy is much more common. It opens doorways or portals to the astral plane and causes intense energy imbalances in people and homes.

In time, Earthbound spirits and negative beings or "entities" in the astral plane can learn to manipulate our physical environments, causing footsteps and other sounds, fleeting shadows, odors, lights turning on and off, voices, plumbing problems, objects falling off shelves, etc.

**Joey** will help you learn to recognize the symptoms and give you insight into removing most Interference Energy from your home. He'll also explain how he locates and moves Earthbound Spirits on to their true Home in the Higher Realms.

### **LAST MONTH'S MEETING RADIONICS with ED KELLY**

For 39 years **Kelly Research Technologies** has delivered top quality radionics equipment, training, and resources to the global community of subtle energy researchers. Now in its second generation, the company is operated by **Ed Kelly**, the son of founder **Peter J. Kelly**. **Ed** is a uniquely qualified instructor, with literally a lifetime spent building and developing radionic instrumentation, collaborating with senior instructors, and writing about this amazing art, as well as countless hours spent in the company of some of the greatest names in American radionics, including Dr. T. Galen Hieronymus, Colonel Tom Bearden, and many others. Like his father before him, **Ed** also serves the energetic community as a member of the Board of Directors of the United States Psychotronics Association.

**Ed** outlined the operational principles of KRT's capacitor-tuned radionic instruments, as well as provided a detailed look at their inner workings. Following

the presentation he had a hands-on demonstration that allowed attendees to directly experience the resonance feedback known as the "stick" on the reaction plate/antenna of a radionic instrument. An emphasis was placed on discussing and describing the many practical applications for these instruments in the home, on the farm, or in a business.

For a preview of the many resources provided by Kelly Research Technologies, please visit the KRT website:

[www.kellyresearchtech.com](http://www.kellyresearchtech.com)

KRT is located in Lakemont, Georgia.

Please contact **Ed** at the above web site if you want to attend the classes he will be teaching about using these instruments.

Thank you, **Ed**, for an excellent presentation!

## **PRODUCTS and SERVICES AVAILABLE from FGD MEMBERS and SPEAKERS**

**FGD members and Speakers may submit an ad for this  
newsletter.**

### **Walt Rodenberger**

Have pain in your body? If you think that your body is at fault: "**Call WALT!**"

[770-630-6898](tel:770-630-6898) or [www.eftcenter.com](http://www.eftcenter.com)

Ed Kelly:
