

Removing Your Energy Pattern from Other Places by Joey Korn

As I mentioned in the Three-Step Process, it can be used to clear your home or hotel room. It can also be used at vacation rentals, hospitals, doctors' offices., any therapists' offices, or anywhere you have laid down on a table, bed, etc. You always leave an imprint of your Human Energy Pattern where you lie down on a physical structure that's raised off the floor. If you're imprinted anywhere outside your home, it's just as important to remove your energy pattern from those places, so you won't be affected later by the unbalanced energies of future occupants, as it is important to remove other people's energy patterns from your home or office, with Step 2 of the Three-Step Process.

As you go to somewhere outside your home: go through the Three-Step Process, which will remove other people from the place and bless the area. If you didn't bring the Three-Step Process with you, then in your own words:

- 1) Say a blessing, asking to remove all people who might be imprinted or connected in the room or home, and
- 2) Ask the Divine to bless the room and/or home for you and, if appropriate, for those you are with.

As you leave somewhere, look back at the room, and especially where you laid down, suspect that your energies are connected there, and:

- 1) Imagine you can see an energy line connecting you to that table, bed, home, office, etc.
- 2) Then imagine a big, sharp knife or a large pair of scissors, cut through the energy line(s), and imagine the energy line(s) being severed.

That will remove your energy pattern(s) from that place, so you are no longer connected there and affected indirectly by any energy problems that might be there in the future, related to future occupants, clients, or patients, as the case may be.

If you forget to remove your energy from a home or place, then, after you get home, get quiet, close your eyes and:

- 1) Imagine that you are standing outside the home, if you stayed there, or imagine the room you were in at a doctor's office, therapist's office, etc.
- 2) Imagine that you can see an energy line connecting you to that home, that office, or a particular bed or table that you have laid down on, and
- 3) As described above, imagine a big sharp knife or a large pair of shears and cut that connection, imagining those invisible energy lines being severed.
