

# Joey Korn's Miracle Blessing Process For Personal Energy Clearing & Space Clearing

Print this file out if you can or keep it in a device for future use. It is your most important blessing process that I share. If you use this blessing exactly as described, you can accomplish much more in personal energy clearing and space clearing than you can imagine. You'll be helping yourself and likely many others, especially if you're directly or indirectly being affected by Interference Energy, which is quite common. You only need to do the Miracle Blessing once on each floor of your home, if people sleep on different levels of your home. You don't have to do it on each bed. After you do it once on each floor, you can then clear all floors from your bed. You can use my Miracle Blessing Process anywhere. If there are energy problems wherever you are, and/or anywhere else you're energetically connected or imprinted, it will clear it all, with very few exceptions, and it will do much more than that.

Illustration by Carolyn Ferris

1. You must lie down to go through this blessing process. You can lie on your bed or anywhere you want. Whenever you're lying down, your head and feet will be in the energy fields of your energy in your energy pattern that crosses the head of your bed. This will always be out of balance if you're being affected by Interference Energy.
2. Don't just read the words off the page; say the blessing slowly and thoughtfully as a blessing. *Think about what you're saying as you read it.* You can say the blessing silently or out loud.
3. Stress all underlined words. That's when you're referring to the source or cause of the imbalance, which is most likely Interference Energy.

*Dear God (or however you address the Divine),  
Please follow the energy fields in my energy pattern  
That my head and feet are in,  
(Pause a moment and look at the image above. Image that pattern, an imprint of your energy pattern,  
around your bed with your head and feet in those energy fields crossing the head and foot of your bed)  
Back to the source or cause of their imbalance,  
Which is Interference Energy,  
And do whatever is appropriate with that energy,  
that is causing these imbalances in my energy pattern,  
To bring healing and balance to my complete being,  
as well as to all who are affected by that energy, here and elsewhere,  
Physically..., Emotionally..., Mentally..., and Spiritually....  
Please remove people who are no longer appropriately connected here now,  
or to any place that energy problems were just removed.  
Please remove my energy pattern from any places I'm imprinted where Interference Energy was or is.  
Please also bless all the Earth Energies, all the human-related energies,  
and all the electrical fields radiating from electrical devices throughout this home,  
To bring healing and balance to my complete being  
And to all who are connected here now.  
Thank You. Amen. (or however you wish to close your blessings)*

## MAINTENANCE INSTRUCTIONS

***MAINTENANCE IS IMPORTANT: By going through my very simple, yet powerful Miracle Blessing Process, you can clear or remove what I call Interference Energy, which is the most common cause of energy problems affecting people and their homes, and it's much more common than you might imagine. You'll be clearing your own home better than most professional Space Clearers know how to do. They do not know about what I call Interference Energy, so they don't understand the importance of clearing or, more accurately, removing it from people and their homes, businesses, etc. as well, nor do they know how to do it.***

Going through my Miracle Blessing Process won't necessarily clear or remove Interference Energy forever, hence the importance of regular maintenance. Consider interference Energy to be an energetic virus. There are two ways to attract or "catch" Interference Energy:

1. By entering intense negative states of mind and emotion, in our reactions to difficult or traumatic events in life.
2. Once someone attracts Interference Energy, others can "catch it," from that person like a virus. However, unlike a physical virus, instead of building resistance to Interference Energy after attracting it and removing it, you'll be more prone to attracting or catching it again.

I suggest going through the MBP at least once a week, which should be sufficient in most circumstances. However, if you want to do it every day, that's fine. If you have someone living with you that is quite ill or having mental and/or emotional problems, then go through it every day.

Also go through the MBP when things feel out of kilter in the energies, when you feel anxious or "off" for no reason you can think of, or when someone has been in your home that you know has big problems in life, especially if they've spent at least one night in your home. When someone like that visits you in your home, even if they don't lie down, you can just excuse yourself for a few minutes, like you're going to the bathroom, lie down on your bed and go through the MBP. It will clear them, even if they don't lie down,

It's great to use when staying in someone else's home, a hotel, vacation rental, hospital room, etc. When you get settled in, just lie down in the bed you'll be sleeping in and go through my Miracle Blessing Process. Then, after you get home, go through it again, as well as the blessing process called Removing Your Energy Pattern from Other Places. You can also use it after you or anyone in the family lies down on a table or couch, such as at a doctor's or therapist's office, such as for a massage. Just enjoy the massage, *then go through both blessing processes mentioned above when you get home.* If it's someone else in the family who has laid down, you might do it in their bed.

It is especially good to go through if you or anyone living with you goes in the hospital, while you or your family member is there. If a family member is in the hospital, and you can't go to the hospital yourself to visit, go through the Miracle Blessing Process while lying in *their* bed. Then do it again after they return home.

If you keep this up, you'll greatly improve your life, along with all who live with, and you have absolutely no idea how many people you might be helping. If you aren't affected by Interference Energy now, you can bet you will be at some time in the future, hence the importance of regular maintenance. You're free to share this blessing process with others you think might need it.
