

Blessing Electrical Fields and Objects You Wear

By Joey Korn

While many people fear EMFs, you can actually bless the electrical field radiating from an electronic device, and the field will become beneficial. Even better, it will remain beneficial indefinitely. You can validate this process by using muscle testing before and after you bless the device and its energy field. See instructions below to do this.

Ask someone to place their cell phone on a table. Then muscle test them, asking them to resist while you push down on the arm, as shown. Push steadily and hard enough to make the arm go down. Get a feel for the resistance strength. Then ask your partner to place the phone at his/her ear with the other hand, and muscle test again, using about the same amount of force as before. You'll both see that your partner is considerably weaker. Then pick up and bless it with the simple blessing below, for your partner, while imagining God's Light going into the phone and into the spiraling field around it.

*Dear God, please bless this device
And the spiraling energy field radiating from it
To bring healing and balance to (person's name)'s complete being,
And to all who enter its field,
Physically..., emotionally..., mentally..., and spiritually....
Thank you. Amen.*

Now muscle test your partner again while he/she is holding the phone to his/her ear. Your partner will muscle test much stronger. This gives evidence to both of you that the blessing process works.

After gaining confidence in blessing a few devices, one at a time, you can then bless all the devices in your home at the same time. Once you bless all electrical fields radiating from electronic devices in your home, they will stay balanced and beneficial indefinitely.

You can also bless an object you wear (such as a watch, glasses, etc.) to protect you from negative effects of detrimental electrical fields that may be outside of your home. Use the simple blessing below to bless an object every time you leave your home. It's all about the intent!

*Dear God, please bless this object (such as a watch, ring, glasses)
So that as I pass through detrimental electrical fields,
They will change to be beneficial while I am in them.
Thank you. Amen.*
